Gecina in a nutshell
Gecina in a nutshell

Key figures at December 31, 2020

- Central portfolio that cannot be replicated
- Clear long-term strategy with CSR as a core pillar
- Engaged collective with all stakeholders on board

- **€19.7bn** portfolio
- **97%** of portfolio located in the Paris Region
- **81%** offices and **19%** residential
- **80%** of office space HQE In Use or BREEAM In Use certified
- **53%** reduction in greenhouse gas emissions between 2008 and 2020
- **88%** of construction site waste from projects delivered in 2020 recycled as materials

- **€19.7 bn** property portfolio
- **97%** located in Paris Region
- **€3.6bn** of development projects
- **9,000** housing units
- **100,000** clients and end-users in commercial and residential sectors
- **498** employees

- **CAC40 ESG**
- **GRESB 92/100**
- **MSCI AAA**
- **CDP A-list**
- **Sustainalytics ESG risk rating 8.8**
Gecina’s purpose
Raison d’être

“Empowering shared human experiences at the heart of our sustainable living spaces”
3 mega trends confirmed
and accelerated through current crisis …

1. Metropolitanization with a focus on centrality and diversity of uses

2. Digital revolution driving the transformation of lifestyles

3. Climate change

Metropolitanization

“Centrality of Paris city is fundamental for headquarters. While in peripheral districts, headquarters look like a living place, it’s actually not the case” CEO (services sectors)

“I wanted for our headquarters to be an extraordinary showcase of our know-how.” CEO (industry)

Digital revolution

Climate change

Tenant’s assessment criteria

- Attractive / Emblematic
- Agility / flexibility
- Efficiency / Productivity
- Environmental performance
- Connectivity
- Social impact
- Financial performance
- New way of working
- Location

Source BNP Paribas Real Estate

Confirmed criteria

Emerging criteria
Centrality and scarcity of our portfolio

providing visibility and performance

€16.0bn offices
- 66% in Paris
- 72% including Neuilly-Levallois

€3.3bn residential
- 78% in Paris\(^1\)

+ €367m student housing

€19.7bn portfolio
- 81%\(^2\) offices
- 19%\(^2\) residential

\(^1\) Calculated on Trad. Residential
\(^2\) Excluding CBI

Gecina's CSR strategy and priorities
2020: proofs of resilience in an uncertain world

Resilience on our business & markets

- c.99% of the 2020 rents collected
- “Back to the office!” strong & quick following lockdowns (~70% of employees are back in Paris region1)
- Leasing transactions signed in 2020 +2% above pre-crisis ERVs
  Still positive reversionary potential
- €474m of disposals achieved, c.+5% premium to appraisals
- Stable portfolio valuation (-0.1% LfL)
  +6.7% Residential, + 2.7% for Paris CBD Offices
  NTA: €170.1 per share (€177.6 unit-by-unit for the residential)
- Current stock price suggests implicit discount of -24%2 of our office value at €8,100 /sq.m, largely disconnected with current market trend on physical markets
- Residential portfolio: strong options for the future

Going forward on our CSR’s commitments

- €2.0bn of responsible loans, hence 44% of Gecina’s bank debt at end-2020, and 60% at end-May 2021 (€2.7bn)
- Internal carbon funds set up / CO2 emissions decreased by –6% in 2020, outperforming largely 2020’s target / CSR committee set / inclusion of a new CSR criteria on LTIP
- Student housing units were made available for healthcare workers & women victims of violence

1 - According Google Mobility at end-January 2021
2 - At the date of 16/02, with a stock price at €117 per share
Our business model contributes to sustainable real estate by:

- Favoring central areas to counter urban sprawl and negative impacts due to commuting
- Transforming high-emitting buildings into low-impact buildings, creating both financial and social value by preferring brownfield over greenfield
2 Strategic update
Strategic update: building the future!

Long term strategic performance to be driven by:

- Centrality
- Client centric approach
- Harnessing Value (Pipeline/asset rotation/capital allocation, etc.)
- CSR pillars
- CAN0P-2030 (Carbon neutrality)
- Digitalization
Gecina’s progressive transformation launched at end-2014...

**BEFORE END-2014**

- Collecting rent

**AFTER END-2014**

- Collecting rent
  - Total return approach

**TODAY**

- Collecting rent
  - Total return approach
  - Servicing clients/users

---

**Total Return approach based** on value creation pillars
- Capitalizing on opportunities for **accretive investments**
- Extracting value through an **ambitious pipeline** in core areas
- Capturing value from disposals and increasing Gecina's exposure to the most central areas
- Implementing **sustainable innovation**

---

- **2017-2018**: **CSR pillars redefined** and integrated into Gecina's strategy to support financial, environmental and social benefits
- **2018-2020**: **Residential portfolio** back at the heart of the Group’s strategy
- **2018-2020**: **youfirst a client-centric approach** to build the future, through a B to B to C model, managing our portfolio as a network of assets

---

**Transformation supported by renewed teams, digitalization, proactive innovation policy and modernization of working processes**
...with proven value creation performance...
Harnessing value creation through portfolio rotation and development pipeline

AMBITIOUS PORTFOLIO ROTATION SINCE END-2014

- **€8.3bn** of acquisitions\(^1\)
- **€5.6bn** of disposals\(^2\)
  - Ow **€3.3bn** since early 2017

+**€0.6bn** of net value creation from disposals and acquisitions since end-2014

\(\text{c.} +€8.0\) per share

STRONG ACHIEVEMENTS FROM THE PIPELINE SINCE END-2014

- **30** assets delivered
- **€3.0bn** Total Investment Cost

+**€1.1bn** of net value creation from the pipeline since end-2014
  - Of which
    - +€83m in 2020

+€15 per share

\(^1\)Including Eurosic
\(^2\)Disposals completed at December 31, 2020

Gecina’s CSR strategy and priorities

June 2021
...while further rationalizing our portfolio through disposals & acquisitions
Harnessing value creation through Centrality & Scarcity...

Office portfolio in % of total portfolio (GAV)

- End-2014: 63%  (€6.5bn)
- End-2020: 81%   (€15.9bn)  (+29%)

Paris City in % of office portfolio (GAV)

- End-2014: 55%  (€3.5bn)
- End-2020: 66%  (€10.5bn)  (+20%)

Disposal of mature or non-strategic office assets, Logistics, Hotels, Beaugrenelle shopping center and Healthcare portfolio
**Our roadmap for residential business to scale-up**

A €3.3bn residential portfolio at end-2020 (and €0.4bn student housing)
More than 6,000 residential units (and more than 3,000 beds for students)

*Enhancing* operational, environmental and financial performance  
*Optimizing* process and margins  
*Harnessing* scale effects and reversionary potential  
*Improving* quality and services  
*Capturing* investment opportunities when accretive to cashflow & NAV

---

1. **Resi portfolio at end-2016**  
Collecting rents, strengthening resilience

2. **Identifying drivers for value creation**  
(Densification, extension, optimization, reversionary materialization, …)

3. **Considering external growth and developments**  
Pipeline developments  
Potential acquisitions, Property development partnerships  
Digitalization

4. **Capturing scale effects**  
Attracting institutional investors through the subsidization to feed Gecina’s capacity to grow further.  
Industrializing our processes  
Capturing scale effects

---

Gecina’s CSR strategy and priorities
Digital and transformative innovation, to face the future

Achieved or on-going

- CRM & Broker portal
  - Flexibility and optimization of the letting process
- Tenants’ webapps
  - Improving quality & services (tenants retention / supply differentiation / competitive advantages / pricing power)
- Online visit tools
  - Enhancing tenants’ wellbeing
- Telemetry monitoring
  - Optimizing operating costs and reducing energy consumption

Under development
What we are doing: focusing on 4 pillars with ambitious targets

Main achievements and commitments for each pillar

**Carbon neutrality by 2030 (CO₂)**

-53% reduction in CO₂ emissions since 2008 (-49% end 2019)

13 projects supported by our internal carbon fund in 2 years

**Promote upcycling and recycling for circular buildings**

- 88% of construction waste for projects delivered in 2020 has been recycled
- 318 tCO₂ avoided by upcycling 262 tons of materials
- Global agreement to systematically upcycle carpets

**Develop buildings and services for our clients’ wellbeing**

- Develop buildings that promote wellbeing: 71% of office buildings contribute more to the wellbeing and productivity of their occupants than a standard building (up +6pts vs 2019)
- 100% of new developments WELL certified since 2017 (avg. of 28% on markets)

**Increase our contribution to biodiversity**

- Green our plots and roofs to contribute to biodiversity: 39% of vegetated spaces at in-ground equivalent
- 100% of new developments certified with BiodiverCity® label since 2017 (avg. of 12% on markets)

80% of sq.m of office space in use certified (HQE or BREEAM In Use)

Up from 72% last year thanks to 17 new buildings certified

➔ Clients want sustainable buildings
➔ Investors value outperforming companies on ESG

Carbon Net Zero Plan 2030
Active strategy for lowering greenhouse emissions is paying off

**Total CO₂ emissions on Office portfolio** (in kg/sq.m/year)

- 2020 CO₂ targets beaten by +18%
- CO₂ Mid term ambitions could be revised upward given better-than-expected trends
- -50% since 2008
- Hence -5.5% /year (vs – 2 % for the sector in average – source : OID)

---

**Total CO₂ emissions on Residential portfolio** (in kg/sq.m/year)

- 2020 CO₂ targets beaten by +10%
- C. -3.9 % / year in average since 2008

---

**Outperforming our expectations lead to Carbon Neutrality in 2030**
CANOP-2030: Carbon neutrality targeted by end-2030

A long-term commitment

-53% reduction in CO2 emissions since 2008
-26% reduction in CO2 emissions for the last for years
80% of buildings are HQE / BREEAM

Capitalize on past performance and our know-how to accelerate ...

- Deploying low-carbon solutions on a wide scale
- Increasing the use of renewable energies (40% of the mix today)
- Continuing to reduce energy consumption by carrying out renovation work,
- Further strengthening the integration of its environmental and financial performance by continuing green financing

... reach our goals with 20 years ahead!

Carbon neutrality trajectory in 2030 (vs. 2050)
Targeting a full green financing policy supporting Gecina’s CSR ambitions

- Gecina started to support the dynamism of its CSR policy through its financing several years ago.
- As of today, 60% of the Group’s credit facilities are “sustainable” loans (€2.7bn)
- Since May 2021, Gecina made an even greater commitment to its financing by targeting a 100% Green bond financing program and publishing its Green Bond Framework

Financing structure (dec-20)

- 60% of bank debt already made of sustainable loans
- A « 100% green » program Since May 2021

1 €5.6bn convened in AGMs as €0.2bn has been repaid by the end of April
Gecina’s sustainability performance levels confirmed once again in 2020

“World top 10 listed real estate companies out of the 415 companies assessed.”

“2nd place for listed office real estate companies in Western Europe”

“One of the best performers in its sector”

“+6% from 2019, thanks to corporate governance improvements & strong certification rate for operational buildings”

CDP: A list Part of CAC40 ESG

Guidance 2021

**Strategic choices in 2020**

- **Disposals 2020**
- **Assets transferred to the pipeline** in 2020 or to be transferred in 2021
- **Anticipating lease break up** outside of Paris city

**& Temporary impacts of the crisis**

- **Weakening indexation**
- Longer negotiation calendar with tenants
- **raising temporarily vacancy**

**2021 impacts**

- **RNR 2021 per share down to around €5.30/share***
- **Lowering LTV**
- **Increasing exposure to central areas**
- Launching **accretive redevelopment projects**

**Mid term perspectives**

- Accretive contribution from pipeline to CF and NTA with **€120m to €130m** additional IFRS rents
- **Normalization** of transaction markets along with vacancy
- **Recovering indexation** post Covid 19 crisis

*This guidance does not take into account potential acquisition or disposal operations that have not been agreed at end-2020 and could therefore be revised up or down in line with the portfolio’s potential rotation during the year.
3 Embedding sustainability
Our vision:
Combining innovation and sustainability into a single department to lift our social contribution

3 MAIN WORKING STREAMS

OFFER A NEW USER EXPERIENCE

SERVE OUR 4 CSR PILLARS: low carbon, circular economy, biodiversity, wellliving

DIGITIZE OUR OFFERS AND OUR PROCESSES

2 MAIN CHANNELS OF INNOVATION

- **Take advantage of the building network**
- **Share spaces, give more flexibility**
- **Personalize the digital path**
- **Differentiating services**

**Relationships with start ups:** direct and through the facilitation of 1 incubator (Wilco) and our stake in 2 venture capital funds (Fifth Wall & Demeter)

**Co-construction with stakeholders:** workshops with employees, partnership with ESSEC BS Real Estate & Sustainable Development Chair, focus groups with European peers on users’ needs
# 5 key sustainability trends offer opportunities to create value

Convergence of Financing & extra-financing trends

<table>
<thead>
<tr>
<th>Trends</th>
<th>Opportunities for Gecina</th>
</tr>
</thead>
</table>
| 1. Clients want sustainable buildings | - B to B need sustainable buildings to embody tenant’s CSR ambitions  
- Focus groups with B to B to C and B to C clients uncovered significant expectations  
- Direct real estate investors prefer sustainable buildings  
=> higher pricing power, lower obsolescence, accretive to IRR |
| 2. Investors value outperforming companies on ESG | - ESG performance lowers cost of capital: 100 % Green bonds and 60 % of green loans  
- Mainstream and ESG investors valuing CSR outperformance |
| 3. CSR attracts, retains and engage talents | - Gecina’s CSR commitments participates to the brand employer  
- Sustainable buildings contribute to talent attraction & retention |
| 4. Paris City and region have high expectations | - Gecina benefits from Paris City action plans on sustainability  
- Public policies to support Gecina’s ESG’s ambitions (local renewable energies network, resilience strategy to climate change) |
| 5. Gecina captures innovation through partners | - Start ups providing services for sustainable cities are booming  
- Large industrials in construction, building materials invest much in R&D, an opportunity to co-develop innovation |
## Our 4 pillars generate financial and extra-financial value

<table>
<thead>
<tr>
<th>4 pillars</th>
<th>Value creation for Gecina</th>
<th>Social value creation</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Low carbon</strong></td>
<td>▪ Lower operating costs, higher capacity to rent                                           ▪ Decrease energy consumption (40 % of energy consumption and 25 % of GHG emissions due to real estate)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ Mitigation of physical risks due to climate change                                       ▪ Facilitating low carbonate lifestyles for 100,000 clients</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ Pricing power by matching clients’ expectations                                          ▪ Support to local renewable energies</td>
<td></td>
</tr>
<tr>
<td><strong>Circular economy</strong></td>
<td>▪ Decrease of waste management costs (2-4 % depending on the development project)         ▪ Lower waste produced (70 % of total waste in France is construction waste)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ Revenues from reselling second-hand équipements and materials                            ▪ Creation of local employment</td>
<td></td>
</tr>
<tr>
<td><strong>Wellliving</strong></td>
<td>▪ Pricing power for ‘value added’ clients                                                 ▪ Increased wellbeing for 100,000 clients</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ +7 % of property value for office buildings enabling high productivity                   ▪ Increased productivity in office buildings (up to +15%)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ Life made easier</td>
<td></td>
</tr>
<tr>
<td><strong>Biodiversity</strong></td>
<td>▪ Mitigation of physical risks due to climate change (eg during heat waves)               ▪ Increased wellbeing</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ Iconic building                                                                         ▪ Contribution to resilient cities (heat island effect = + 8°C in Paris by 2100)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>▪ No urban sprawl</td>
<td></td>
</tr>
</tbody>
</table>
4 Targeting 4 pillars
lifted by 4 enablers
4 pillars driven by 4 enablers

CANOP-2030 AND LOW CARBON POLICY
- Reach net zero carbon emissions for standing buildings by 2030
- Minimize energy use, decarbonize our energy mix and lower embodied carbon
- Support low carbon innovation with our internal carbon fund and partnerships

CIRCULAR ECONOMY
- Promote the reuse and recycling of resources from our deconstruction site
- Design buildings that evolve over time and are more simple to deconstruct
- Promote recycled or reused materials in our restoration projects

WELL LIVING
- Designing buildings contributing to the productivity of their occupants
- Ensuring that 100% of developments bear the WELL Building Standard® label

BIODIVERSITY
- Green our plots and roofs to contribute to biodiversity and local species
- 100% of developments labeled BiodiverCity®
- Involve tenants: sensitize them to enable act them

Certify our portfolio to engage all actors along our value chain

Empower employees: sensitize, incentivize, provide operational tools and methods

Responsible purchasing: require sustainable products/solutions into all our specifications and apply sector-specific CSR criteria during call for tenders

Involve clients: embed CSR into our Youfirst journey
**Toward carbon neutrality by 2030**

Better energy-efficiency and decarbonizing the energy mix

### ACTIONS IMPLEMENTED AND RESULTS

<table>
<thead>
<tr>
<th>Decarbonizing the energy mix</th>
<th>Facilitating connections to low carbon energy sources</th>
</tr>
</thead>

### BREAKDOWN OF EMISSIONS ACCORDING TO GHG PROTOCOL

- **Scope 1** (tons of CO₂): Commercial 3,523, Residential 3,574
- **Scope 2** (tons of CO₂): Commercial 3,035, Residential 4,184
- **Scope 3 partial** (tons of CO₂): Commercial 9,185, Residential 3,270
- **Total CO₂ (tons of CO₂)**: Commercial 15,743, Residential 11,028
- **Total surface area (sq.m)**: Commercial 416,303, Residential 1,220,591

(2) Including emissions linked to the consumption of electricity and heating and cooling networks operated by Gecina.
(3) Including indirect emissions related to energy consumed but not controlled by Gecina and use by our tenants.

Since 2019: our internal carbon fund supported 13 internal decarbonization projects

Gecina's CSR strategy and priorities
Lowering embodied carbon

Key actions implemented:
- Creation of a guide for Life Cycle Analysis (LCA) in the Design phase
- Carbon footprint of materials taken into account in the specifications
- Low carbon labeling

Note: the more the project progresses, the more its carbon footprint improves thanks to the selection of low-carbon products.

(1) Source: Alliance HQE – GBC France, January 2019, median of office projects.
Implementation at Be Issy

Be Issy, a positive mark on the city. The first positive energy office building in the business district of Issy-les-Moulineaux, the Be Issy building has been awarded the Bepos Effinergie 2013 label. It generates more energy than it consumes. Its minimal energy requirements are fulfilled by a heat pump, which exploits the facility’s geothermic resources, and 960 m² of photovoltaic panels, which cover the rooftop terrace almost entirely.
Circular economy: resource-efficient developments and reuse materials

KEY ACTIONS IMPLEMENTED AND RESULTS

**Recovering deconstruction waste**
- 88% of delivered construction site waste recycled as materials.
- Framework contract to systematize the recovery and recycling of carpeting on all clean-up operations of more than 600 sq.m where the carpet cannot be reused.
- 100% of resource diagnostics identified in or ex situ re-use.
- "Circular Economy axis" targeted for residential development operations in the scope of NF Habitat HQE certification.
- Strengthening the requirement for materials derived from re-use or those with a long life cycle (repairability, lifetime, warranty of spare parts).

**Recovering resources from operating activities in the property portfolio**
- Formalization of best practice sheets for 11 categories of materials and equipment for renovation work. These sheets enable operational staff to deploy circular economy practices on our sites.
- Provision of 29 best practice sheets, including 4 priorities for the circular economy, so that they can be integrated into future work plans.
- 2 new Gecina buildings equipped with Cyclope ashtrays in order to recycle cigarette butts as fuel for ovens, taking the total up to 9 buildings equipped, representing 58 kg of butts collected and recycled in 2020.
- 11 residential buildings equipped with "Relais" collection points, the leading operator for collection and recovery of textiles, clothing and shoes in France, representing more than 18 tons of textiles collected.
- New operating waste management contract with challenging CSR criteria to ensure that the service providers selected are the best performers in their recycling operations. From 2020, all contracts covered by Gecina guarantee 100% energy or material recycling.

REUSING IS POSSIBLE!

99% of operating waste recovered as materials or as energy, i.e. 1,064 tons of office waste collected\(^{(1)}\), of which 30% recovered as materials and 69% recovered as energy.

88% of construction site waste delivered in 2020 were recycled as materials.

More than 262 tons of materials reused in 2020, representing 318 tons of CO\(_2\) avoided, or the equivalent of the annual waste of 500 French people.

---

\(^{(1)}\) For 43% of the commercial buildings covered by a collection contract subject to annual reporting.
79% of material identified to be reused were actually reused either by Gecina or its partners.

| Strengthening the provisions of the specifications on well-living for restructuring | • Formalization of You-first Experience guidelines for our office and residential clients in order to provide them with a pleasant and responsible user experience.  
• 100% of developments aim for the WELL® label at a minimum of Silver level (compared to 28% on the market) and the HQE & LEED® certification, promoting comfort, health and well-living.  
• 100% of the materials installed during restructuring work are labeled A+ (very low level of emissions of volatile pollutants).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Strengthening the premium positioning of assets in operation              | • Premium positioning conducive to comfort, health and well-living (centrality, intrinsic quality of the building).  
• 84% of our offices are located less than 5 minutes walk from at least one public transport system (bus, metro, RER, train) with high frequency.  
• Formalization of best practice sheets to identify performance thresholds and improvement actions for our 4 major topics in 2021.  
• Taking account of the well-living impact of all investments.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Step up actions to measure and optimize air quality, lighting quality and the acoustic quality of office spaces | • 80% of our offices are equipped with an air quality management system through air renewal and filtering.  
• 100% of our deliveries in 2019 and 2020 are equipped with CO₂ probes and fine filters or active carbon filters.  
• In 2020, 17 buildings had maintenance contracts that include air quality analyses.  
• 74% of our office buildings benefit from the presence of natural light for 100% of their workstations. 23% benefit from natural light for 80% of their workstations.  
• 96% of our office buildings benefit from protective measures for managing acoustic pollution inside (insulation of technical premises, acoustic baffles on all ducts, internal phonic insulation, etc.).  
• 80% of our office buildings benefit from acoustic attenuation measurement vis-à-vis the outside (acoustic joinery on façades at risk of air intake, etc.).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

Implementation at Carré Michelet

The Carré Michelet building: the embodiment of the YouFirst ambition and the contribution to client well-being

The Carré Michelet building, located at 10-12, cours Michelet in La Défense, covering more than 37,000 sq.m, embodies Gecina’s ambitions regarding the comfort and well-being of occupants through the intrinsic qualities of the building and the wide range of innovative services offered to its occupants.

The office spaces have been designed for new uses of clients and are open and flexible. 88% of the office space is brand new (open floor areas) and all the service spaces have natural lighting. The wide spacing of the windows (1 window every 2 frames) maximizes the input of natural light into the various spaces. Clients also benefit from 1,400 sq.m of outdoor space offering accessible landscaped areas, including a large internal courtyard of nearly 500 sq.m at street level, an indoor garden, and terraces and balconies as part of the standard floor layout. In addition, a custom work of art is being created, which is to be suspended in the inner courtyard.

Many services have been deployed across the building:

- a 1,277 sq.m business center facing the courtyard which has capacity for up to 650 people, including an auditorium of 200 seats and six modular meeting rooms;
- various catering spaces have been designed to meet the needs of the occupants: a self-service restaurant, an alternative all-day catering option, fast food and takeaway, and a working café. These various dining spaces can serve 1,230 meals per day;
- a fitness space;
- two bike storage areas allowing no-step access to the building.

These features make Carré Michelet the first office building in Gecina’s property portfolio to be rated A (according to the Vibeo calculation method). This means that occupants generate more than 10% additional productivity than in a standard building. In particular, Carré Michelet received the maximum score of 20 in the criteria of comfort, building services and relaxation spaces.

<tr>
<th>Key actions</th>
<th>Progress and results</th>
</tr>
</thead>
</table>
| Defining a vision and tools          | • Creation of 16 best practices sheets to be implemented to improve our contribution to biodiversity.  
• Deployment of our new biodiversity policy approved by the Executive Committee, accompanied by a new assessment tool (building biodiversity profile) and action sheets.  
• Founding and board member of the International Biodiversity & Property Council (IBPC), involvement in the Regional Biodiversity Agency of Île-de-France, SNB (National Biodiversity Strategy) recognition, etc.  
• Strengthening of requirements in terms of contribution to biodiversity in the standard operating and renovation specifications for green spaces. |
| Measure our contribution to biodiversity | • Creation of a biodiversity profile allowing a biodiversity assessment of green spaces to be carried out.  
• Inventory of fauna and flora present in the property portfolio.  
• In 2020, installation of 20 hives on 10 buildings, and 12 buildings with insect hotels and nesting boxes. |
| Boost the greenification of dense urban areas | • 409,000 sq.m of green space on the buildings in operation, the equivalent of 58 football pitches or twice the size of the Tuileries garden.  
• Systematic involvement of an ecologist for all new programs.  
• 100% of surface areas under development in 2020 are working towards the BiodiverCity® label.  
• 4 office buildings and one residence are working towards the BiodiverCity® Life label after a year of testing.  
• Creation of habitats for local species.  
• Prohibition of the use of phytosanitary products (such as glyphosate) for providers of green spaces.  
• Depermeabilization of the inner courtyard to create an internal garden of 300 sq.m in open ground (originally non-existent) at the building delivered in 2020, rue de Madrid in Paris.  
• Project to redesign the green spaces of an office building in La Défense, conversion of over 1,700 sq.m of gardens to high environmental quality. BiodiverCity® Life certification in progress. Implementation of an urban agriculture project on roofs. |
| Get our 100,000 clients involved in biodiversity | • 3 events on biodiversity and sustainable consumption carried out with employees at the Gecina headquarters during the European Sustainable Development Week.  
• 10 biodiversity awareness workshops planned for 10 buildings (5 offices and 5 residences) with the help of the Casques Verts non-profit organization. |

Gecina’s CSR strategy and priorities
Implementation at Ville d’Avray

The true nature of Ville-d’Avray. In Ville-d’Avray, southwest Paris, Gecina owns and manages over 700 housing units surrounded by a leafy garden with its own stream and a number of ponds. In this vast expanse of nature, Gecina decided to transform a 125-unit development project initially intended to be built using concrete in 2014 into a wooden structure. The project aims to earn the BiodiverCity® label, the leading international label for the consideration of biodiversity in real estate developments.
Sharpening our tools to achieve our priorities

**Responsible purchasing**
- Gathering peers to align CSR criteria to impose to suppliers
- Integrate technical requirements and corporate criteria into RFPs

**Engaging the value chain**
- Targeting 6 certifications & labels for all our developments

**Empowering teams**
- Awareness-rising and idea creating: Climate Fresco
- Cascading corporate targets into individual objectives, specific to each position
- Equip team with ready-to-use best practices and guidebooks

**Involving clients**
- Our relational brand, a catalyst
- Integrating CSR into KAM
- Experimenting nudge approach
- Telemetry

**Embedding CSR**

- **Proportion of women within the Governance, Appointment and Compensation Committee** (33% in 2014) - 67%

**Corrective actions since 2011,** 271 employees impacted, of which 175 women - 491

**Dedicated to wage equality since 2011** - €907 000

**Respected target of difference in gross compensation between women and men for 5 comparable categories on 7 in total** - +/- 3%
Sustainability is a collective challenge that benefits the planet, employees, customers and assets
5.1 Integrate further Gecina’s CSR dynamic into Gecina’s Financial resources
A 100% Green Bonds structure

- Gecina started to **support the dynamism of its CSR policy through its financing** several years ago. Thus, as of today, 60% of the Group’s credit facilities are “sustainable” loans (€2.7bn)

- Since May 2021, Gecina made an **even greater commitment** to its financing by reaching a **100% Green bond financing structure** and publishing its Green Bond Framework

---

**Financing structure (dec-20)**

- **RCF** (44%)
- **Mortgage** (0%)
- **Bond** (56%)

**In progress**

- Transformation is already in progress for revolving credit facilities with **60% of bank debt** which are now sustainable loans

**On existing bonds**

- Requalification of all of its existing bonds into green bonds
- Focus on HQE in use certification and low-carbon emissions
- Gecina allocates an amount at least equivalent to its bonds outstanding to a portfolio of eligible green assets

**For future bonds**

- Future bonds will be issued under the Green Bond Framework
- The Group may propose on its future green bond issuances to introduce a CSR KPI impacting the financial conditions of those future new bonds, in line with the Sustainability-Linked Bond Principles. This KPI will be linked with Gecina’s public goal of achieving carbon neutrality by 2030. **Existing outstanding bonds obviously not fall under this and remain absolutely unchanged**

---

1. €5.8bn convened in AGMs as €0.2bn has been repaid by the end of April
An ambitious approach for the 100 % Green Bonds structure

Global approach

On bonds portfolio

- 100% of the existing bond debt is requalified into Green Bond (subject to a positive vote in bondholders General Meetings)
- All future bond debt will be issued in this Green Bond format

On Gecina's asset portfolio

- 100% of assets is tested every year and may become eligible
- All asset classes are targeted (office and residential)
- Bonds are not allocated to a fixed portfolio / pool of assets over the whole duration of the financing but to a portfolio meeting at each test date eligible criteria

Our criteria are more and more ambitious

- The carbon criteria becomes more and more ambitious over the years, in line with our carbon trajectory until reaching carbon neutrality in 2030, illustrating our desire for continuous and global improvement of our portfolio
- Certification criteria are more ambitious for renovated buildings than for buildings in use

On top of Green Bonds format, introduce the possibility of SLB for future bond issues

- SLB = Sustainability-Linked Bond, with a sensitivity of the interest rate whether extra-financial criteria are met
- The KPI used will be the Carbon trajectory, in line with the public objective of achieving neutrality by 2030

➔ 100% Green approach: a program that aims to requalify in Green Bonds more than €5bn already invested in financing and/or refinancing Green Eligible projects

➔ An approach that promotes all environmental improvement actions on the overall portfolio and not relying only on the best performing assets

➔ A dynamic approach of eligibility criteria, in line with the desire to continuously improve the Group's CSR performance

➔ If issued, it would be among the first time a bond issuance meets both "Green Bond" and "SLB" formats
Focus on our carbon footprint's eligibility criteria

Illustration of Gecina’s high ambition in terms of carbon emissions

Gecina average (2008) 27.8

Market average (2019) 16

Gecina’s 2020 performance 13.9

Criteria 37.5% better than market average and 28% better than Gecina’s average

Dynamic criteria more restrictive over time illustrating the targeted continuous improvement toward carbon neutrality

Gecina’s 2020 performance 27.1

Criteria 50% better than market average and 26% better than Gecina’s average

Eligibility criteria 2020

Source of benchmarks: Sustainable Building Observatory, 2020

Gecina’s CSR strategy and priorities

49 - June 2021
Overview of key characteristics of our Green Bonds program

**Usual Green Bond in real estate**
- New Bond (benchmark size) €500M
- Few projects
- The most common Eligibility Criteria are certifications and rarely performance indicators
- Limited to environmental certifications
- Static
- Mainly refinancing of existing assets but also financing of new or development projects
- The allocation of the proceeds is dedicated to some assets over the first months of the financing
- Fixed for the duration of the bond

**Usual Green Bond in real estate**
- Fixed

**Targeted Gecina 100% Green program**
- Existing €5.6Bn + future bonds
- All Group’s assets
- Performance & impact criteria
- Dynamic
- Refinancing & Financing in future
- Annual

- Management of proceeds
- Use of proceeds
- Eligible criteria
- Criteria to qualify eligibility
- Scope for eligible assets
- Scope of application

- Gecina’s all outstanding bonds (€5.6bn) and future new bonds
- Both in development and in operation, and the whole portfolio being tested each year
- CO₂ emissions, in line with carbon neutrality pathway 2030 (CANØP-2030) as well as certifications and labels
- CO₂ emissions criteria being more and more restrictive over time (dynamic trajectory) in line with Carbon Neutrality target by 2030
- Refinancing of a portfolio of eligible assets and financing of future projects
- Each year, the whole portfolio is tested and actions will be taken to improve the volume of eligible assets meeting the criteria (some assets can lose their eligibility)

DIVERSIFIED EXPERTISE OF THE BOARD TO MEET CHALLENGES OF TOMORROW (AT END-2020)

For the fourth consecutive year, Gecina retained its leading position obtained in 2016 in the ranking of companies with female executives on the SBF120 compiled by Ethics & Boards for the Secretary of State for equality between women and men and the fight against discrimination.
Focus on governance
CSR strengthened in Gecina’s governance and organization

MR JÉRÔME BRUNEL APPOINTED CHAIRMAN BY THE BOARD OF DIRECTORS ON APRIL 23, 2020

- Mr. Jérôme Brunel was appointed as Chairman of the Board of Directors on April 23, 2020, replacing Mr. Bernard Carayon, whose term of office as Chairman was due to end.

- Mr. Jérôme Brunel is qualified as Independent Director in line with the criteria set out in the AFEP-MEDEF Code.

- Mr. Jérôme Brunel’s expertise, particularly in terms of governance, corporate social responsibility (CSR) and public affairs, represents a significant asset, complementing the expert capabilities that are already in place within Gecina’s Board of Directors.

MR JÉRÔME BRUNEL’S PROFESSIONAL EXPERIENCE

Jérôme Brunel is an Institut d’Études Politiques de Paris graduate, has a master’s in public law from Université de Paris-Assas, and attended both ENA (1980) and INSEAD (AMP - 1990). After joining Crédit Lyonnais at the end of 1990, Jérôme Brunel held several operational leadership positions in France, Asia and North America, before becoming its Head of Human Resources in 2001. When Crédit Agricole and Crédit Lyonnais merged in 2003, he was appointed Head of Human Resources for the Crédit Agricole Group. He was then Head of the Regional Banks Division, Head of Private Equity, Head of Private Banking and Head of Public Affairs for Crédit Agricole S.A. He served as the Group’s Corporate Secretary until he retired at December 31, 2019.

CSR strengthened in Gecina’s governance and organization

WITH THE CREATION OF TWO NEW COMMITTEES

- **New!** Corporate Social Responsibility (CSR) Committee

- **New!** Compliance and Ethics Committee

- Strategic and Investment Committee

- Audit and Risks Committee

- Governance, Appointments and Compensation Committee
Focus on governance
CSR fully integrated in Gecina’s governance and organization

THE BOARD OF DIRECTORS ENSURES THE INTEGRATION OF CSR IN GECINA’S STRATEGY

– CSR targets are integrated in the business plan and the Group strategy and taken into account by the Board of Directors especially in major operations
– The Board of Directors approves the CSR policy on an annual basis and regularly reviews Gecina’s performance on this subject
– The Board of Directors examines and approves the report of the independent auditor on the consolidated non-financial performance statement
– The Board of Directors decided to create a CSR Committee, illustrating Gecina’s strong commitment to position CSR stakes at the heart of its value creation model and strategy
– The Board of Directors ensures that CSR is also integrated in Gecina’s Human Resources management policy
  o Attract and build loyalty with motivated and qualified employees who join Gecina’s long term strategy (long term compensation, training policy, equality men/women)
  o Use CSR as a variable compensation criteria

THE BOARD OF DIRECTORS ENSURES THE INTEGRATION OF CSR IN ITS ORGANIZATION AND IN ITS GOVERNANCE PRACTICES

– Board of Directors structure (separation of the duties)
– Board of Directors functioning (diversity of skills, proportion of men and women, 64% of independent Directors, specific committees, and a new CSR committee ...)
– Compensation system for executive corporate officers (alignment with shareholders’ interests)
Focus on governance

Focus on governance

Gecina’s performance aligned with shareholders’ interests

MEASURES SET UP TO ALIGN GECINA’S PERFORMANCE WITH SHAREHOLDERS’ INTERESTS

Annual evaluation of the performance of the Board of Directors and of the CEO

- The Board of Directors leads an annual discussion of its operating principles and those of its Committees, often helped with an external consultant.
- The questionnaire, established for the evaluation of the Board of Directors, includes questions concerning CSR, in accordance with the Board of Directors desire to ensure best practices application in terms of company governance.

Procedure to be followed by Directors in the area of prevention and management of conflicts of interests

- The Director shall inform the Board of any situations of conflict of interest, even potential, and shall refrain from participating in the discussion and the vote on the corresponding deliberation.

Succession plan for executive corporate officers

- Governance, Appointment and Compensation Committee establishes a succession plan for executive corporate officers. This plan, which was reviewed regularly by this Committee, envisages various continuity solutions depending on the duration for which the executive corporate officer in question is unavailable.
Focus on governance

CEO’s compensation aligned with Gecina’s strategy and shareholders’ interests

CEO FIXED COMPENSATION IN LINE WITH THE BENCHMARK

- Amount of the CEO fixed compensation: €650,000

Since January 1, 2018 and further to the vote on the CEO compensation policy by the 2018 Annual General Meeting, the Board of Directors, based on work carried out by the consultancy Mercer on a sample of 15 comparable real estate companies and as recommended by the Governance, Appointments and Compensation Committee, set Ms. Méka Brunel’s annual fixed compensation at €650,000.

List of the 15 comparable real estate companies included in the Consultancy Mercer’s benchmark

Chief Executive Officer’s compensation measure to support charities working to combat Covid-19

As a solidarity measure in response to the serious health crisis faced today, Ms Méka Brunel, Gecina’s Chief Executive Officer and Director, decided to propose to reduce her fixed compensation for her position as Chief Executive Officer by two months for 2020, representing around 17% for this year. This proposal, as recommended by the Governance, Appointments and Compensation Committee, was approved by the Board of Directors meeting on April 23, 2020, which praised this initiative (following its previous praise for the initiative by Gecina’s Directors, who proposed that the Board of Directors should decide not to pay any remuneration for the Board meetings linked specifically to Covid-19). Gecina has decided to donate an amount equivalent to these two months of salary and the corresponding payroll tax savings to the Gecina Foundation to support charities working to combat Covid-19.
Focus on governance
CEO’s compensation aligned with Gecina’s strategy and shareholders’ interests

ANNUAL VARIABLE COMPENSATION, INCENTIVE TO SHORT TERM PERFORMANCE

The target variable compensation is set at 100% of the fixed portion of the compensation, with a possibility of reaching a maximum of 150% of the fixed portion of the compensation if the target quantitative or qualitative performance criteria are exceeded. The quantitative criteria represent 60% of the variable compensation and the qualitative criteria represent 40%.

Quantifiable performance criteria: Target 60% / Maximum 90%
The achievement of the quantifiable performance criteria will be determined based on the following table:

<table>
<thead>
<tr>
<th>EBITDA % actual / budget</th>
<th>Bonus</th>
<th>Recurrent net income (Group share) - per share % actual / budget</th>
<th>Bonus</th>

PERFORMANCE SHARES, INCENTIVE TO LONG TERM PERFORMANCE

The performance shares in line with the Total Return strategy and the CSR strategy

### Performance criteria for performance shares

- **Term of the vesting period is 3 years + holding period is 2 years.**

- **TSR criteria (Total Shareholder Return)** compared to the Euronext IEIF “SIIC France” TSR index over the same period (3 years). In the event of performance below 85%, none of these performance shares will be vested.

- **TPR criteria (Total property return)**: EPRA NTA dividends attached per share compared to a group of five French real state companies\(^{(1)}\). If this average performance is not exceeded, none of these performance shares will be vested.

- **New CSR criteria**: Change in Gecina’s office assets energy consumption compared to peers’ assets energy consumption. Change on a like-for-like basis of the final energy consumption corrected form climate, in sq.m per year (in kWhEfh). Source: Gecina annual reporting and for peers, public data from the OID Energy Barometer\(^{(2)}\). If Gecina energy consumption reduction is lower than peers, none of these performance shares will be vested.

</tbody>
</table>

(1) Total investment for the committed pipeline = latest appraisal value from when the project started up + total build costs. For the controlled pipeline = latest appraisal to date + operation’s estimated costs
(2) Includes the value of plots and existing buildings for redevelopments
(3) Committed pipeline is valued at €1,441m at FY-2020
(4) Yield on cost is calculated using either the contracted rents when pre-let or the mandate given to brokers for committed projects. For others, if no mandate is ongoing, assumptions retained are based on internal assumptions
