The Board of Directors was responsible for preparing this information.

Our role was to attest to the accuracy of this information.

As part of our statutory audit work, we have audited the financial statements for the year ended December 31, 2023. Our audit, which we conducted in accordance with professional standards applicable in France, was planned and performed solely for the purpose of issuing an opinion on the financial statements taken as a whole and not on any individual items of the financial statements used to determine the total amount of compensation paid to the Company's most highly paid people. Accordingly, our audit tests and samples were not performed with this objective and we do not express any opinion on any specific items of the financial statements.

We performed the procedures that we deemed necessary in accordance with professional standards applicable in France to such engagements. These procedures, which did not constitute an audit or a review, consisted of making the necessary reconciliations between the total amount of compensation paid to the Company's most highly paid people and the underlying accounting data, and verifying that it was consistent with the data used to prepare the financial statements for the year December 31, 2023.

Based on our work, we have no matters to report as to the consistency of the total amount of compensation paid to the Company's most highly paid people, as presented in the enclosed document, i.e., €5,440,790, and the accounting data used to prepare the financial statements for the year ended December 31, 2023.
